

# The manual

## How to create the mockup from <https://www.coinmarketplus.com/>

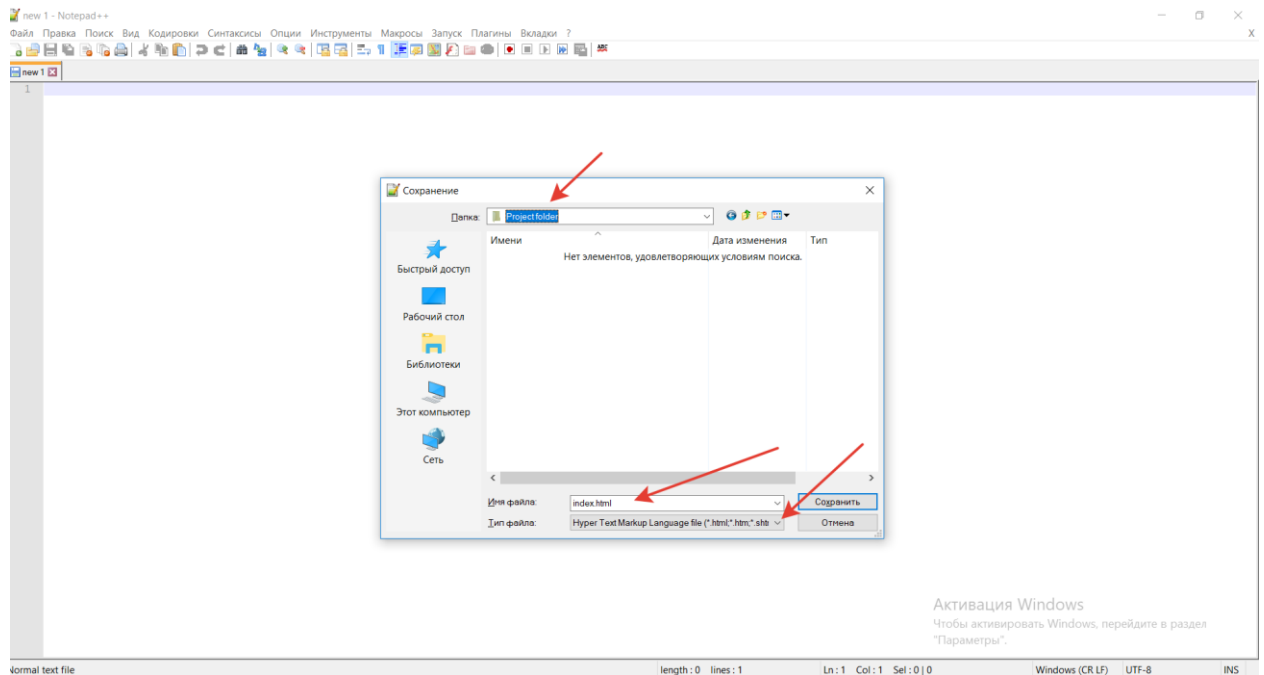

1. If you want to create the mockup from <https://www.coinmarketplus.com/> you need open this page in the browser, as an example

2. Open notepad++ and create html-file with name – `index.html` in your project folder as an example:

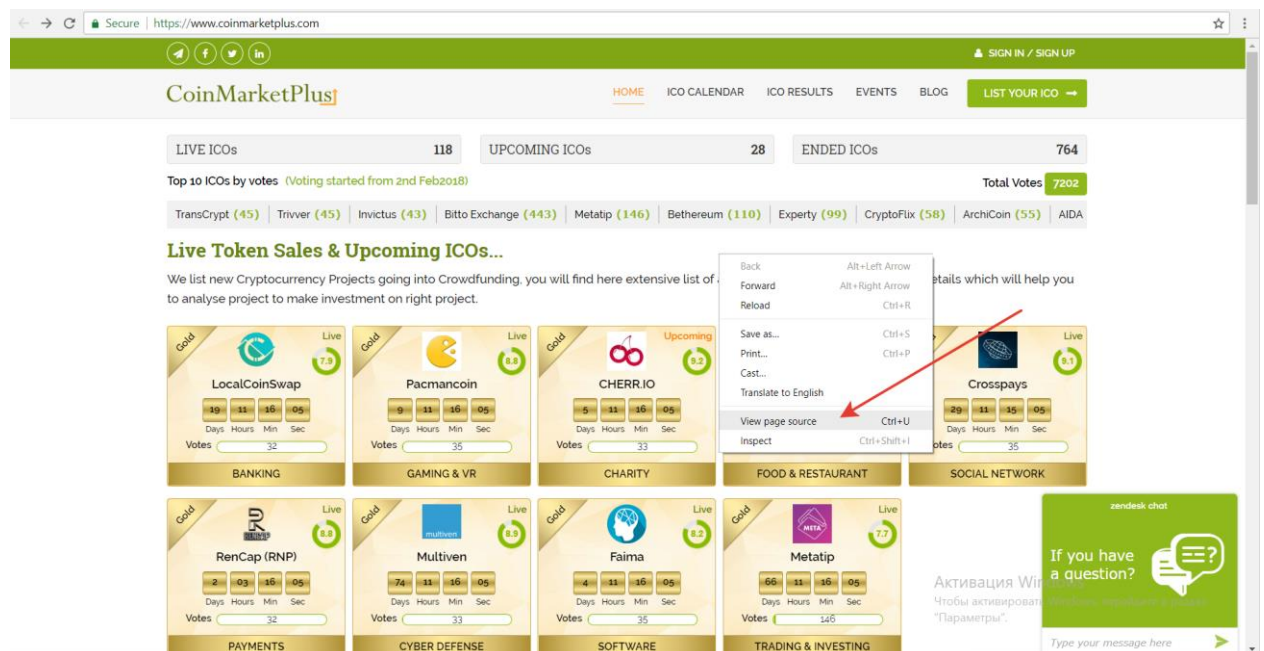

And save this file as `index.html` file. Please, before saving, to check the type file – it must be `.html` as a screen:

3. You created the `index.html` file and the next step you need to copy html code from <https://www.coinmarketplus.com/>

For that you need to click the right button in your mouse and you need choose **view page course** in context menu as an example:

You can see page with html code.

7. After that you must change the title on the page

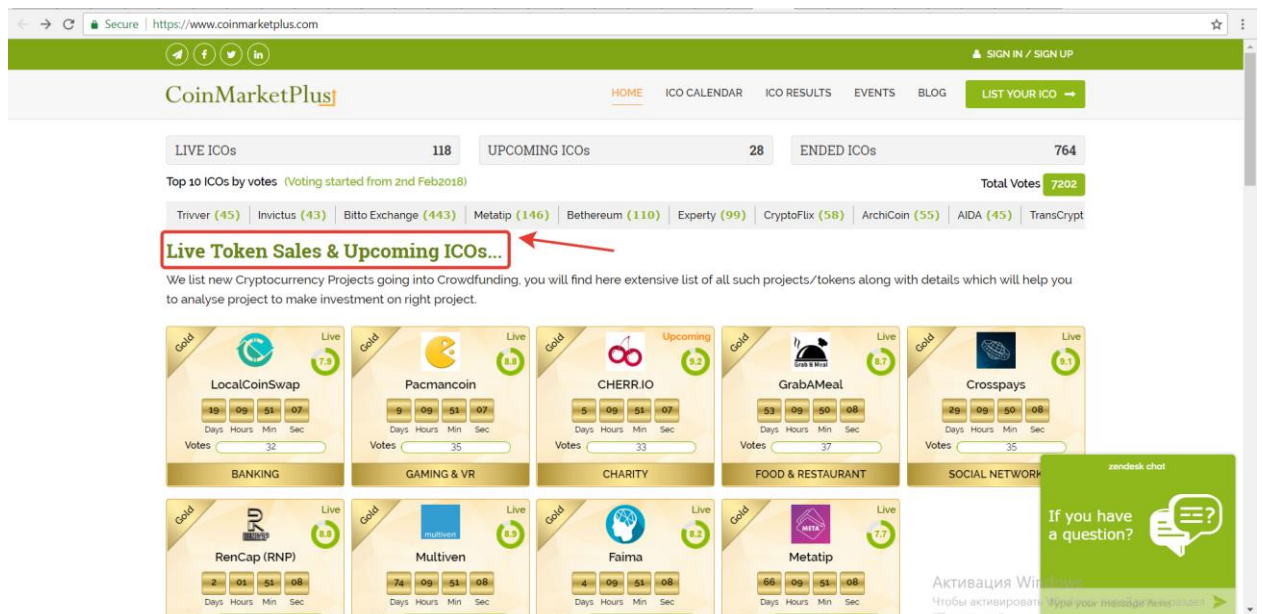

and you need to change his **@font-face** from previously face to the face **Open Sans**. You need to write in your `style.css` this string `@import url('https://fonts.googleapis.com/css?family=Open+Sans');`;

and write to the **h1** tag this face - **font-family: 'Open Sans', sans-serif;** as a screen:

## 8. Before the title on the page

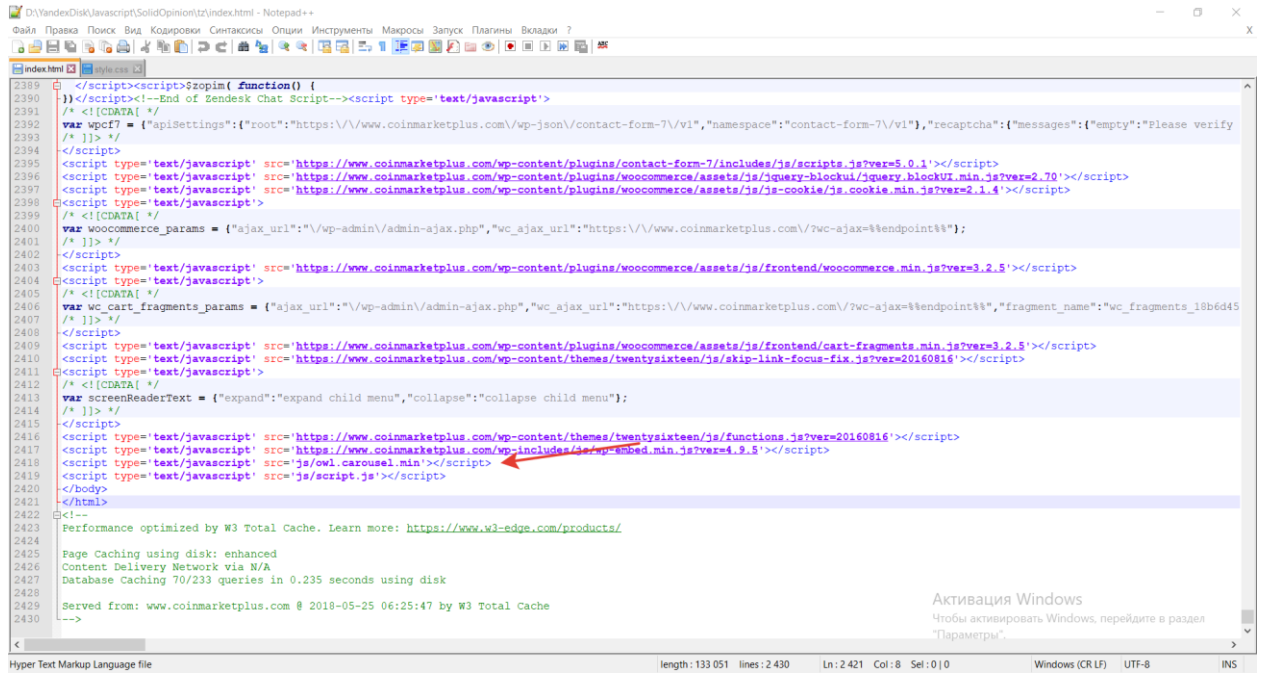

you must to create the slider with four pictures. These picture must be the subjects of this page. They mustn't have a size more than 1024px x 512px. The slider must have a free style. His position must be in the center on the page.

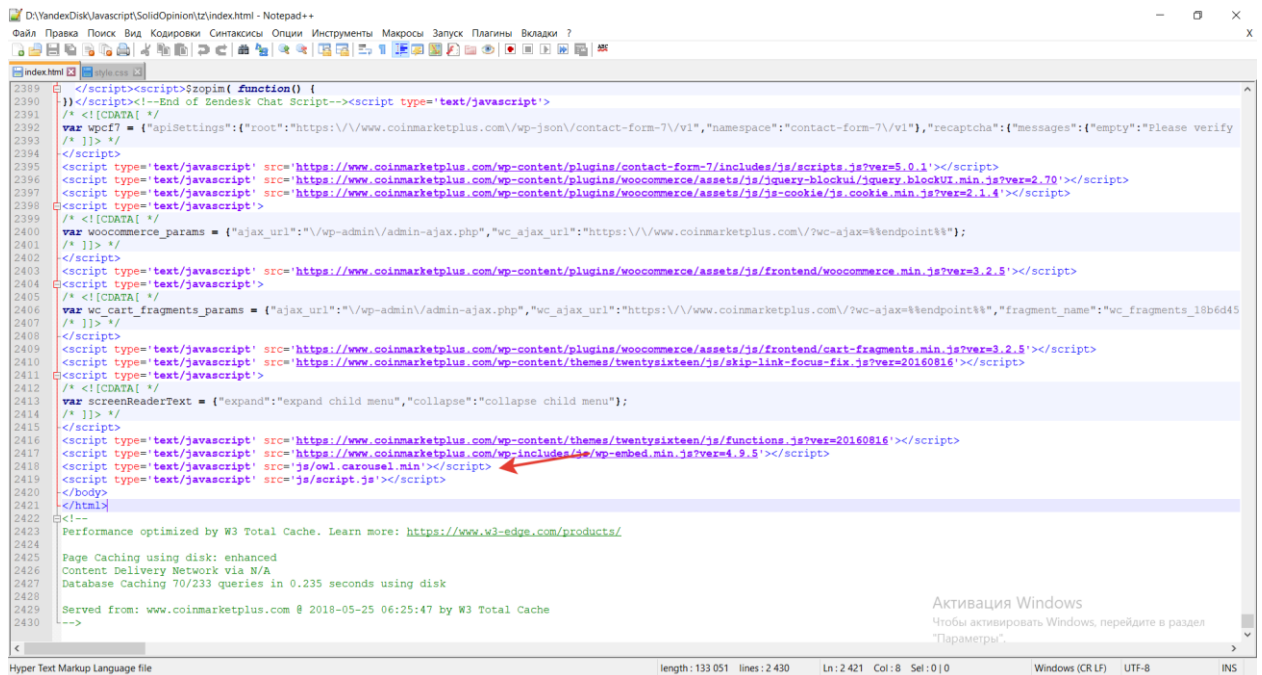

I recommend that you to use the **owl carousel 2** for this goal. You need to download it from the site <https://owlcarousel2.github.io/OwlCarousel2/>

You need to move in **css folder** the file **owl.carousel.min.css** and you need to move in **js folder** the file **owl.carousel.min.js**

9. After that you need to include these files in your **index.html** as an example:

```
2389 </script><script>$zopim( function() {

That's all, your mockup from <https://www.coinmarketplus.com/> had produced.

Please, put all folders and file `index.html` from your project folder in your account to the **github**. These files must be free for save.

Good luck.
